Date:

MEMORANDUM FOR : Director of Logistics
ATTENTION : Chief, Supply Division
SUBJECT : Special Warehouse Space

1. The Assistant Director, Office of ELINT, is requesting that approximately 300 feet of warehouse space be allotted to this office for the use of the Quick Reaction Branch. The area will be used to warehouse special electronics equipment which is on the accountable records of this office; as a holding area for instrumentation awaiting shipment to overseas collection activities; as a storage center for obsolete and unserviceable equipment for which disposal action is pending; for the storage of prototype equipment awaiting test and evaluation under simulated field conditions. Additionally, this area will be used by commercial vendors to repair equipment which is beyond the Agency's servicing capability.

2. With respect to the physical security of the special space, this office requests that it be enclosed with wire mesh, etc. with key lock access door. Warehouse and guard personnel requiring access to the area would be provided keys.

3. Disposal action, as construed in paragraph one, pertains to instrumentation which is incorporated into collection assemblies, the application of which may bear a security classification. As this instrumentation is dismantled, components will be turned over to the Office of Logistics for disposal. Disposal requiring special processing will be handled on an ad hoc basis with the full participation and co-ordination of the Office of Logistics to ensure compliance with existing regulation.

GEORGE C. MILLER
Assistant Director
Office of ELINT
